Subject Mixed Species Self-Seeders Affecting Highway Access & Private Properties

Hi Lisa,

Ref EOC Service Ticket: 1484840

There are approx 6 x mixed species self-seeders to the side of 41 to 43 Lapwing Lane, Didsbury, that are affecting access along the footpath. They all need crown lifting and reducing back from the properties. These trees fall within the conservation area, do we need to submit a full application before we can implement the pruning?.
