RE: Apps. 112155 and 112156 - 2-6 Booth Street

Hi Carolyn

I have spoken with the client/operator and I can confirm that there will be no amplified music in either rooms, just background music (if and when required). The conference rooms include one with a permanent boardroom layout used for conferences and private dining with an movable table (3.2m x 1.0m). The other room will have a conference auditorium tiered layout.

The report produced by Fisher Acoustics (ref: MPF/PR0514/L03 dated 13th May 2016) identifies the recommended maximum allowable noise levels in the apartments above and gives the maximum recommended noise levels in the conference rooms such that the allowable noise levels in the apartments are not exceeded. The maximum recommended noise levels in the conference rooms would allow the use of background music or lightly amplified speech if required.

MCC's requirements in relation to the maximum allowable noise level in the apartments are substantially lower than the recommendations set by Fisher Acoustics and therefore compliance with MCC's criteria can be easily achieved.

The maximum recommended noise levels in the conference rooms would allow the use of background music or lightly amplified speech without breach of MCC'S target noise levels.

Hope the above helps. If you have any other queries, please let me know.

Cheers

Jack
