Note:
Do not scale from this drawing.
Dimensions are to be checked on site.
If in doubt please ask.

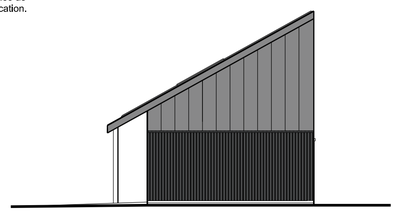

New basement and staircase as part of new planning application.

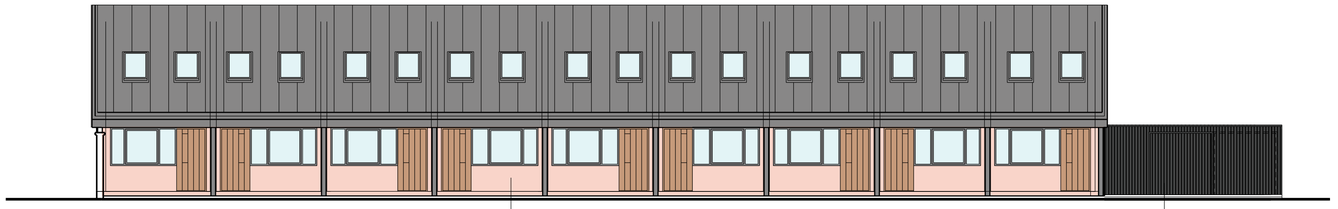

SOUTH EAST ELEVATION

Brick. Finish and colour to match new chapel extension

Upper section clad in standing seam aluminium panels

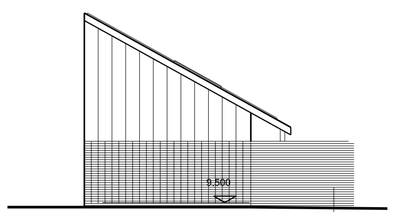

SOUTH WEST ELEVATION

NORTH WEST ELEVATION

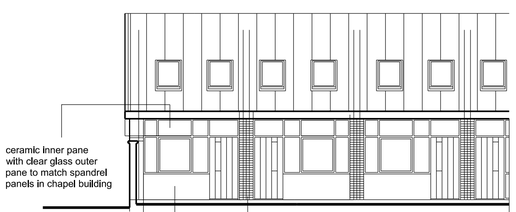

Brick. Finish and colour to match new chapel extension. A change in material is sort to the original planning consent which was gloss colour coated aluminium panels.

Single story steel framed bike store with solid timber clad finish. Consent already agreed for the structure however a change in materials is sort to soften the site boundary. Please refer to conversations with Bradley Hart from Secure by Design for confirmation of the use of timber as a viable replacement for the consented brick finish

NORTH EAST ELEVATION

See drg no 6389(03)005 for elevation in context with main chapel building

225 thick brick boundary wall, bond and colour to match chapel building

scrap elevation showing treatment over windows
