Dear Sirs,

We just wanted to inform you that we have submitted a planning application to the planning department at Manchester City Council relating to the plot of land at 79a Palatine Road. The application will consider a change of use to residential and will include the lane which is under shared ownership between 27 and 29 Circular Road within the application as it provides access to the site.

Full details of the planning application will be available via the Manchester City Council planning website, or please feel free to call me for more information.

Best wishes,

Andrew Toogood
