Design and Access Statement

Funeral Parlour Services, 1065 Rochdale Road, Blakely, Manchester, MP 8AJ

It is proposed to provide a carport to the side of the building to enable hearses to load and unload under cover. This will have a front projecting canopy and a polycarbonate sheet roof. The present roller shutter door will be changed to double doors set within a brick wall. The bricks will be chosen to match the existing brickwork in this area of the building.

Access for disabled persons is not affected by the proposal.
