Boundary treatments - description:

Description of *existing* materials and finishes:

As part of the West Gorton Masterplan the plots were due to be bounded by timber knee high rails and concrete bollards in locations where pedestrian access needs to be retained on public rights of way.

Description of *proposed* materials and finishes:

The proposal is to use the above method to create the boundary of the car park. Timber knee high rails will form the boundary and concrete bollards will be used to restrict vehicle movements and retain pedestrian access to the site, where necessary, on public rights of way.

Vehicle access and hard standing - description:

Description of *existing* materials and finishes:

As part of the West Gorton Masterplan, following demolition, the former housing plots are due to be made good, soiled and seeded for a temporary period until the construction of new housing commences as part of phase 2. Existing hard standing areas and access are to be retained.

Description of *proposed* materials and finishes:

To form the new car park it is proposed to make good the former housing plots and to use Highways Agency MoT Type 1 stone, with fines finish to create a permeable, compact surface for a temporary period. The exisitng hard standing areas and access are retained as above. To create crossings 200mm reinforced concrete will be used to protect the existing surfaces on public rights of way.

Lighting - add description

Description of *existing* materials and finishes:

Existing street lighting

Description of *proposed* materials and finishes:

The existing street lighting will be retained and will provide the adequate level of lighting required for the car park. A plan showing the existing layout of street lighting is included within this application.
