Subject Re: 47 sedgeborough road taxi base

hello
to answer the points you raised
1 Cellar not in use at the moment access exists to the cellar see existing floor layout
2 I will send in a layout indicating the car parking spaces allocated to the taxi base
3 No mast is required the taxi drivers have smartphone connections returns to base are restricted to comfort breaks not to obtain work hence only 2 spaces are allocated
i hope this answers your queries
If however you require further clarication plases do not hesitate to contact me
