Hi Mark
I have been asked to look into your query re the use of the site as a compound in relation to the proposed works. Could you send me a plan with the possible choices for the compounds which would enable me to look into the planning history of the sites.With regards to submitting a retrospective planning application, if you occupied the site prior to securing planning permission, there is always a risk, as issues may arise during the consultation process. I would suggest that you get a site plan to me as soon as possible, and, if planning is required submit the application as soon as you can, as, if there are no objections to the proposal, and it is acceptable from a planning point of view, it could be determined under delegated powers following the expiry of the consultation period
