Comment Details

Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:As a resident who has lived very close to Ryebank Fields for 30 years I would like to strongly support this proposal.

In reality the area only served as a university sports field for a very short time (it certainly hasn't been used in that way during the time I have lived here). The area has been well used as a natural resource by the local population, as well as by those from outside the area

The area is an important natural environment for wildlife, trees and plants etc. This is greatly enjoyed by the many who use it.

I believe that this plan offers the best opportunity for maintaining the environment in the correct way so that the environment is preserved and enjoyed by many.

Other plans and proposals to build on this land have an unacceptably destructive and negative impact on the environment and surrounding area
