Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The proposed plans do not reflect the statements made in the documents provided.

The majority of the site has been used for car parking, with no street side frontage.

This is despite their statement to encourage a range of sustainable travel options as an alternative to car use.

They also identified the site is located in a highly sustainable location and there is real opportunity for residents to travel to the site using sustainable modes of transport, walking, cycling, and using public transport. Only 33% saying they usually travel by car.

I would be less concerned if the building was located along the pavement with active street frontage, and the car park was hidden behind the building.
