Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:I support this application to preserve this valuable space as part of our collective effort to address the crisis we are facing in terms of biodiversity loss (a sixth extinction)and its impact on human welfare and health.

This Labour governments solution to the social and economic crisis we face is not going to work . We cannot tackle a housing crisis without redistribution of wealth and that includes property. If we don't restructure we will build more homes and these will be hoarded by the wealthy and we will still have a housing crisis and ongoing bio diversity loss and failing human health.
