Hi Sue.

Further to our telephone conversation earlier today, I have now obtained accurate information from our Land Team, Services Manager and Site Team allowing me to put the attached document together.

I fully appreciate that anything that we build is at risk following the planning process, however, we do need to continue with the treatment in accordance with the handover schedule.

If you could provide me with guidance of acceptance based upon the information supplied this would be useful.

The other treatments i.e. netting to mount road and the Nico ditch are to be cleared by Youth Fed. We can liaise and work with their representatives to speed up the process.

I look forward to hearing back from you.

Ray
