Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I would like to wholeheartedly support the proposed planning application for Ryebank Fields. Ryebank Fields represents an important sanctuary for local wildlife - even walking over from neighbouring Longford Park you can see and hear the increase in birds and insects that make the fields their home. Protecting natural spaces should be a priority for our community and city - as Manchester grows in size and population and the city centre high-rises multiply, it becomes ever more important to provide people and wildlife in our community with places to retreat and recharge. I hope this plan to further develop Ryebank Fields as a community green space is taken up.
