John,

Israel Sieff Court 7A Bennett Road Manchester M8 5DU - 143300/TCA/2025

The applicant has proposed to carry out the following works:

Our certified team will attend site and cut back the encroaching conifer and horse chestnut on the corner of the building to ensure a 1 metre clearance away from and over the building, or as much as can be achieved. The car park Cherry trees will be uplifted back to kerb line to a height of 5 metres, or as high as can be achieved. All works will be undertaken from ground level using an extended pole saw and pruning rods. All waste will be processed through a wood chipper and removed from site for suitable disposal.

I can confirm that we would have no objection to the proposed 1m clearance from the building and the 5m crown lifting work.

We would not permit the application to prune by more than this unless they send further detailed proposals.

Kind regards

Rudi Farghaly
