Description

Bat-friendly, weatherproof, and built to last – the Beaumaris has it all

If you've ever wanted to give bats a warm, safe place to roost (and let's be honest, who wouldn't?), the Beaumaris Bat Box is the perfect pick. Designed especially for crevice-roosting bats, it features a rough interior that gives them plenty of grip to hang out - literally.

Bats need a cosy spot to warm up before they take off, so the dark exterior of this box helps soak up the sun's heat. The clever part? It's made entirely from WoodStone®, a super durable material that doesn't just last long - it also helps regulate the temperature inside. That means fewer sudden chills or overheating spells, making it a top-notch spot for bats to rest.

This box isn't just tough - it's CJ Wildlife-tough. So tough, in fact, it comes with a 10-year warranty.

Why the Beaumaris Bat Box is a brilliant roost

- Designed for crevice-roosting bats - with a rough interior surface for extra grip.
- Black exterior absorbs heat - helping bats warm up before flight.
- Made from 100% WoodStone® - strong, weather-resistant and insulating.
- Stable internal temperature - reduces stress for roosting bats.
- Built to last - weighs approx. 6 kg and comes with a 10-year warranty.

Why choose CJ Wildlife?

- Developed with conservation experts to truly support bat welfare.
- Made from sustainable, animal-safe materials.
- Proudly endorsed by partners.
- Built for real impact - designed to help biodiversity thrive, one roost at a time.
