Hi Angela,

Apologies for the delay in getting back to you on this.

We would like to confirm that as an interim measure, the bird boxes will be installed on the Manchester Technology Centre (façade facing Symphony Gardens – map snippet below for reference) until the trees within Symphony Gardens are mature enough for the bird boxes to go on them.

We have also been discussing with the project ecologist and they have provided confirmation that the interim measure is sensible and acceptable from ecology point of view.

We would be grateful if you could review, and let us know if this would be acceptable to MCC / GMEU? Look forward to hearing from you.

Kind regards,
Matt
