Comment Reasons:

Comment: Dear panel members,

I wish to support the planning application. It will preserve a valuable green area next to my daughter's school, an area we walk through most spring and summer days, weather permitting, and which we've enjoyed enormously for the 10 years we've lived in the area. It would be incredibly upsetting to see it destroyed and built on. It is a wonderful habitat for birds, insects and mammals and we're considering destroying it; for what? I'm also obviously concerned about the traffic and pollution that alternative proposals would guarantee to the surrounding streets. It is an incredibly valuable asset for the local area; it would be an absolute travesty were we to lose such a precious local resource. What kind of example are we setting for our children, proposing to build on one of the few largely untouched rewilded areas in our city?
