Description

Please describe details of the proposed development or works including any change of use

The property is currently being used as a residential garage. Our intention is to convert this space into a two-bedroom bungalow, which will involve enhancements to the ground floor, including the development of an open-plan kitchen and dining area, modifications to the existing bathroom, and the addition of two bedrooms and a lounge. The current owner has already undertaken certain improvements, resulting in the installation of a functioning kitchen, bathroom, and boiler within the garage. At present, the space also includes bathroom facilities, partial kitchen amenities, and an office area.
It is understood that the current owner has been approached regarding registering the premises as a separate dwelling for council tax purposes.
Our company plans to purchase the property and, subject to obtaining the necessary consents, create a fully functional second dwelling with clearly defined boundaries, in full compliance with all conditions set by your office.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

- ◯ Yes
- ⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Self-build and custom build development

Are you building more than nine houses?:
No

Is the total size over 0.5 hectares?:
No

Do all buildings meet the definition of self-build or custom housebuilding as set out in section 1(A1) of the Self-build and Custom Housebuilding Act 2015?:
Yes

Does your Local Planning Authority require applicants for self-build and custom-build development to evidence their eligibility?:
No

Please justify the reason why biodiversity net gain does not apply:
The proposed development converts an existing garage with a modest front extension on previously developed land. As there is no loss of natural habitat or greenfield land, the statutory biodiversity net gain requirement does not apply in this case.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

- ☑ Mains sewer
- ☐ Septic tank
- ☐ Package treatment plant
- ☐ Cess pit
- ☐ Other
- ☐ Unknown

Are you proposing to connect to the existing drainage system?

- ⊘ Yes
- ◯ No
- ◯ Unknown

If Yes, please include the details of the existing system on the application drawings and state the plan(s)/drawing(s) references

The proposed dwelling will be connected to the existing mains foul drainage system serving the property.

Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste?

◯ Yes
⊘ No

Have arrangements been made for the separate storage and collection of recyclable waste?

◯ Yes
⊘ No

Trade Effluent

Does the proposal involve the need to dispose of trade effluents or trade waste?

◯ Yes
⊘ No

Residential/Dwelling Units

Does your proposal include the gain, loss or change of use of residential units?
