Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:I support the area being used for nature and biodiversity. We are in such a populated area and need access to nature for everyone's mental and physical health. A variety of spaces is important, not just planned and manicured parks. Longford park is great but so heavily used, and gets flooded and waterlogged for half the year. This ryebank fields area needs to be able to absorb water as it does now otherwise it will run off to surrounding houses, streets and mainly longford park much of which will become worse in bad weather and unusable. My kids grew up feeling a thrill for exploring forests, long grass, trees, and finding bugs and animals in ryebank fields. This stays with them as they venture to camping and being outdoors lots as they are teens now. I hope more kids do the same.
