Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:I support this proposal because I have been walking through these fields frequently and enjoy the wonderful plants that grow there. Marsh orchids put on a particularly exotic-looking display in May but there always seems to be some interesting flower or fruit there.

I was unemployed for two years and discovered the fields while walking to Stretford Mall to sign on. That little respite of natural experience on the way and coming back really helped me with the feelings of depression and hopelessness of my situation. Gave me a sense of continuity with the wildlife of the area. Now I regularly walk down there just for the joy of experiencing such beauty.

I hope you see the need for as much "wasteland" as we can afford in our beautiful city/cities.
