Delegated officer report for planning application

Application no. 143185/FH/2025

Date registered valid: 26 June 2025

Proposal: Retrospective application for the installation of EV charger to front of property

Address: 7 Countess Road, Manchester, M20 6RS

Ward(s): Didsbury East Ward

Applicant: Liam Ridley

Agent (if any):

Case officer: Jake Walther
Tel: 0161 234 1632
Email: jake.walther@manchester.gov.uk

Recommendation: Approve

Date of recommendation: 15/08/2025

Application details

Type of application: Full Householder Application

Development type: Householder

Standard consultations:

Printed: 3 July 2025 Expired: 24 July 2025

Neighbour notifications

Printed: 3 July 2025 Expired: 24 July 2025

Site notice

No site notice has been produced

Press advert

No press advert had been published

Departure from Development Plan: No

Environmental Statement: Not required

Description of site/building/area

The application relates to a two-storey mid terrace class C3 dwellinghouse on Countess Road. The property is finished in red brick and features a front garden with brick boundary treatment to the front.

Listed building: Not applicable

Conservation area: Not applicable

Tree Preservation Order: Not applicable

Description of development

The applicant is seeking retrospective permission for the installation of an EV charger to the front of the property.

Consultations & Notification Responses

Highways – The proposed EV charger is installed to the wall located to the frontage of the property, within the site's curtilage. This is acceptable in principle.

The EV charger will have a charging unit of 7.4kW - this is acceptable in principle.

It should be ensured that any cables associated with the EV charger reaches the vehicle. Use of matting is required for cables to protect pedestrians along the footway. The matting/cable protector should be non-slip and suitable for outdoor use. It should have contrasting colour markings for visibility. It should also have sloped, anti-trip sides, and be of a tough construction. Residents are recommended to park adjacent to the location of the charging point and use matting on the adopted highway to maintain pedestrian movement. Once the vehicle has been charged, residents will be required to remove the matting and EV cabling from the highway. Further information on EV charging can be found on the council's website using the below link: [Charging at home | Electric vehicle \(EV\) charging | Manchester City Council](#).

Neighbours, as per Appendix 1 – No comments or objections received.

Policy

The following policies are considered relevant in the considerations of this application.

The Manchester Core Strategy Development Plan Document 2012-2027 - The City Council adopted the core strategy on July 11, 2012. It is the key document in the Manchester Local Plan. The plan determines how Manchester will grow and forms the framework that planning applications are assessed against. We consider the following Core Strategy Policies relevant to this proposal.

- Policy DM1 – Development Management
- Policy SP1 – Spatial Principles
- Policy EN1 – Design Principles and Strategic Character Areas
- Policy T1 – Sustainable Transport

Places for Everyone

Places for Everyone (2022-2039) – Places for Everyone is a long-term plan of nine Greater Manchester districts for jobs, new homes, and sustainable growth. It has been published by the GMCA on behalf of the nine districts and took effect and became part of the statutory development plan on March 21, 2024.

The following policies are relevant:

- JP-S1- Sustainable development
- JP-S2 – Carbon and energy

The National Planning Policy Framework (December 2024)

The document sets out the Government's Planning Policies for England and how these are expected to be applied. At the heart of the Framework is a presumption in favour of sustainable development in terms, "For plan-making" and "For decision-taking", (paragraph 11).

Paragraph 8 - Achieving sustainable development means that the planning system has three overarching objectives, which are interdependent and need to be pursued in mutually supportive ways (so that opportunities can be taken to secure net gains across each of the different objectives):

- an economic objective
- a social objective and
- an environmental objective.

The following specific policies are considered to be particularly relevant to the proposed development:

- Chapter 8. Promoting healthy and safe communities.
- Chapter 12. Achieving well-designed and beautiful places.

Principle

The installation of an electric vehicle charger on the front elevation of the property is acceptable in principle and aligns with the objectives of Policy T1 of the Core Strategy, which supports low-carbon modes of transport. However, careful consideration must be given to the potential impact of the charger on visual amenity and public safety.

Visual Amenity

Given the modest size of the charger unit measuring 170mm in height, 200mm in width, and 100mm in depth and its placement below the bay window on the front elevation of the property, it is not considered that the installation adversely affects the visual amenity of the area. As such,

the charger is deemed to have a minimal impact on the street scene and visual character and is therefore considered to be in accordance with Policies DM1 and EN1 of the Core Strategy.

Highways Safety

The charging unit is wall mounted, within the curtilage of the property and would not pose any risk to public safety as it does not project directly onto the public highway. However, the trailing of the cable over the public highway does pose risks to public safety, subsequently Manchester City Council Highways Services have published guidance in relation to the safe use of cables across the public highway which should be adhered to as stated in the informative attached with this decision notice.

In this instance, MCC Highways department has already installed a pavement channel to allow for the safe trailing of cables beneath the pavement, reducing any potential risks to public safety.

Conclusion

Given the above issues, it is considered that the proposal is acceptable in terms of its impact upon visual amenity and public safety in accordance with policies SP1, DM1 and T1 of the Core Strategy, and chapters 8 and 12 of the National Planning Policy Framework.

Other Legislative Requirements

Equality Act 2010

Section 149 (Public Sector Equality Duty) of the Equality Act 2010 requires due regard to the need to: Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act and; Advance equality of opportunity between persons who share a protected characteristic and persons who do not share it. The Equality Duty does not impose a legal requirement to conduct an Equality Impact Assessment. Compliance with the Equality Duty involves consciously thinking about the aims of the Equality Duty as part of the process of decision-making.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

Officers have worked with the applicant in a positive and proactive manner based on seeking solutions to problems arising in relation to dealing with the planning application. No significant

problems have arisen during the consideration of this application and the application has been determined in a timely manner, in accordance with the policies with the Development Plan.

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1. Specified plans:

The development hereby approved shall be carried out in accordance with the following drawings and documents:

- a. Drawing - Location Plan – 12 June 2025
- b. Photo – Indicative Location photo– 12 June 2025
- c. Supporting information – Technical specs – 12 June 2025

Reason - To ensure that the development is carried out in accordance with the approved plans, pursuant to policies DM1, SP1 and EN1 of the Core Strategy.

2. Specified materials:

The materials to be used on the external surfaces hereby permitted shall match those as specified on the application form in type, size, colour, and texture.

Reason - To ensure the appearance of the building to be extended is not adversely affected by the materials to be used in the construction of the structure. Pursuant to policies DM1, SP1 and EN1 of the Core Strategy.

Informative:

Residents are recommended to park adjacent to the location of the charging point and required to use matting on the adopted highway to maintain safe pedestrian movement. Once the vehicle has been charged, residents will be required to remove the matting.

Further information on EV charging can be found on the council's website using the below link:
