20mm joint between panels
(joints to be 10mm where base loaded refer to subcontractors proposals for futher details)

XX_PT-XX_X
Block — Panel type — Brick Variation

Precast Type - Refer to drawings 21330-21331 for types

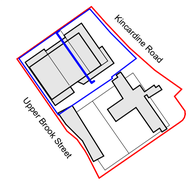

Notes:

1. All panelisation shown indicative only to reflect design intent and joint locations. Final panelisation layout by specialist subcontractor
2. Sub-contractor to account for types being handed & variations to meet dacade design
3. Specialist facade engineer/ consultatnt to review design specification/ thermal bridging/ movement tolerances/ thermal bridging/ dew point analysis etc.
4. Refer to drawings 21340-21349 for brick setting out & false joint locations
5. Panel coffering indicative, refer to specialist CDP packages for final design and positioning

Drawings are design intent & coordination only, refer to specialist subcontractors packages for full information. All subcontractor to subcontractor interfaces and compatibility remain the responsibility of the main contractor and subcontractors. All to be read in conjunction with facade engineers specification
