Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:I'm in favour of this proposal which preserves Ryebank Fields as a rewilded area for community use. It has historical value with the Nico ditch and historical poplar trees. These stories are important & of interest to Manchester, especially local people. It is accessed by numerous local people & is highly values as a peaceful wild space to stroll, sit, walk dogs or come together. It's a unique space where nature has been allowed to flourish for years, now having a diversity of species of flora & fauna. We are loosing too many green spaces in the uk & our wildlife is declining at a shocking rate.

It is also important as a natural carbon sink & acts to prevent local flooding.
