Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: As the development of Manchester as an ever enlarging second city for this country continues with pace, our green spaces and undeveloped areas are an important reminder of what this place offers its residents beyond glittering spires. Being embedded within the Peak District and Pennines is part of the city's charm and a unique quality of our city within a natural environment.

Retaining Ryebank Fields as a community woodland and meadow is an important reflection of our surrounding area to be found within Chorlton cum Hardy. I do not need to reiterate the information found on www.saveryebankfields.co.uk. in this comment. As an informal and wild space it is a very rare oasis and I support this application.
