Description of Proposed Works

Please describe the proposed works

We would like to install an Electric Vehicle Charger to the front of our property. This would be used for on-street charging, so I have been advised by Manchester City Council that planning permission is required. Other very similar houses on our road already have Electric Vehicle Charging Points installed for on-street charging.

The planned work would be used to charge a new electric vehicle that we plan to purchase. If this planning request is rejected, we will instead purchase a petrol car. This application, should it be approved, therefore carries environmental benefits in the form of reduced carbon emissions and air pollution for the local area.

Our property has plants/bushes in the front garden, which would be used to ensure that the electric vehicle charging point was not highly obvious from the road.

When charging the car, we would ensure that the cable was appropriately used, for example following the below as set out by Manchester City Council. We would ensure that our cable: does not cause a danger, risk or nuisance to the public; lies flat and along the ground; never hangs from or over street furniture, streetlamps, trees, walls or hedges; has a protector; and is not left out when our vehicle has finished charging.

Has the work already been started without consent?

- ☐ Yes
☒ No

Materials

Does the proposed development require any materials to be used externally?

- ☒ Yes
☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Other

Other (please specify):

Electric Vehicle Charger

Existing materials and finishes:

The work would require installation of a small Electric Vehicle Charging Point on the front wall of the property, which is brick.

Proposed materials and finishes:

We will install a charging point that is as subtle as possible, and minimise the appearance of this from the road with bushes/plants in our front garden. We will likely be installing an Ohme charging point which are small and black.

Are you supplying additional information on submitted plans, drawings or a design and access statement?

- ☐ Yes

☒ No

Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

- ☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

Details of the pre-application advice received

Following an email enquiry, I received advice on 2 July 2025 that I would likely require planning permission for the installation of a Electric Vehicle charger. I also received advice on installing chargers in Manchester (https://www.manchester.gov.uk/info/500113/city_centre_growth_and_infrastructure/8437/electric_vehicle_ev_charging/3) and around the safe use of cable mats (https://www.manchester.gov.uk/info/500113/city_centre_growth_and_infrastructure/8437/electric_vehicle_ev_charging/2).

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.

Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days?

- ☒ Yes
- ☐ No

Is any of the land to which the application relates part of an Agricultural Holding?

- ☐ Yes
- ☒ No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

*** "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.**

**** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.**

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
