Comment Details

Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I fully support this application because it allows for the money the following:

- The retention of a naturally rewilded space with a diversity of species, some of which are protected. In the current climate this is something all commercial cities should be trying to achieve.
- A natural 'lung' in the heart of a community which experiences high levels of air pollution. This space will help remediate this due to its abundance of trees.
- A community space, the use of which is beneficial to people's mental and physical wellbeing.
- The preservation of a remnant of the historic Nico Ditch.
- The retention of the community garden which people have put so much effort into creating and maintaining.
