Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:I support this application. The protection of this valuable space, with its many important and varied species of trees and wildlife, is so important to the local neighbours and further community. It can be enjoyed by many, and the natural habitats and wildlife are safe. There'll be no traffic clogging up either end of Ryebank Road, which will benefit those living there.

Manchester and Trafford are doing more than their fair share of building new homes. It would be a big loss to Chorlton and Firswood, if this space was given up for more traffic congestion. We need green space, now more than ever, and many local people have spent many hours creating this oasis of calm.
