Comment Details

Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:I support this application to restore Ryebank Fields without reservation. Ryebank Fields were, are and should continue to play a critical part of the social and cultural heritage of the area. It is a space that I walk through everyday with my wife, a space that provides calm, beauty and tranquility, and which provided a safe space for our children to explore and engage with other children, when they were growing up, and where so many memories were created. This is a unique green space full of nature and wild life and losing it to any proposed housing development would result in a mass concrete jungle, killing history and nature.
