Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:I wish to support the application ref. 143413/FO/2025. I have been a resident of chorlton for nearly 40 years. Me, my family and friends really value and appreciate this beautiful rewilded plot of land and feel it should be kept as a community resource. Green spaces are really important for people's health,well being and community cohesion. As it offers opportunities for the community to meet up and come together. Also, we are in a climate and biodiversity emergency. We should not be building on a greenfield, rewilded site. We want our children and future generations to have access to nature and it must be protected.
