Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: This rewilded land is beneficial for children and adults to be in touch with nature that is not curated.

It is vital for biodiversity, lowering emissions, improving air quality and natural habitat to pollinators and other wildlife.

The trees on the boundary should be protected as they are very rare.

Longford Road is already too full of cars and we don't need more cars and buildings here.

I support the plan to create a community woodland at Ryebank Fields.

This green space is vital for local people and wildlife.

Once green spaces are lost, they rarely return. Protecting Ryebank Fields as woodland would safeguard it for everyone now and in the future.
