This application seeks full planning permission for the erection of single-storey extensions to the front and rear of the property, together with associated boundary works.
At the front of the dwelling, the proposal includes the construction of a ground-floor extension to provide a new dining room and an additional bedroom. At the rear of the property, a single-storey extension is proposed to accommodate a utility room and a new downstairs W/C (bathroom).
In addition, the application proposes improvements to the boundary treatment. This includes the erection of a combination brick wall and composite perimeter fence, along with the installation of a sliding gate, as indicated on the submitted layout plans.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:
Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:
The property is still going to be used for residential purposes just as the current / existing use

Note: Please read the help text for further information why developments may be exempt or not in scope.
