Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:I support this planning application to save Ryebank Fields as a wildlife area. I am very worried about pollution levels in Chorlton. Research shows that they affect not only our respiratory health, but also cardiac and mental health. Pollution affects young people's growing brains and older people's ageing brains. Chorlton is absolutely stuffed with constant new housing being built. Using brownfield first provides more land than is needed for house building.

Ryebank Fields offers an experience different from the neighbouring park, also a lovely space. Not everyone is confident to walk in wilder spaces with lots of different paths like Chorlton ees.

Ryebank Fields is wonderful for people with young families and women wanting to walk on their own.

It is clear from this plan how cherished this wild space would be.
