Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I wish to support this planning application for the following reasons:

I am a local resident and this is the only green space within Manchester City borders within a 15 minute walk from my home.

I utilise this green space currently for physical and mental health and wellbeing.

The access to local outdoor green spaces is in keeping with the NHS current 20 year plan which promotes the use of physical activity to prevent disease and, ultimately reliance on the NHS Services.

If this wild space is not maintained we will lose the habitats of many different species.

I live in high density housing, the city council closed my close access to physical activity when Chorlton Swimming baths shut and this makes it increasingly difficult to access spaces locally for physical exercise.
