Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I wish to support the above referenced planning application for the following reasons:

- Chorlton is already gentrified enough and we have seen the disappearance of independent initiatives in favour of property development, without the investment in social spaces or community-led initiatives. This is leading to a loss of identity and community in the neighbourhood, putting it at risk of becoming yet another generic area of the city. Community driven initiatives such as this one are key for maintaining a sense of community and cohesion in an already polarised society and city.
- From a health and environment perspective, maintaining Ryebank Fields as a green space is vital for ensuring our health and the health of our biodiversity is supported. It also aligns with GM's aims in terms of environmental responsibility.
- This proposal gives back to the community and the children.
