Comment Reasons:

Comment: [REDACTED] this proposed monstrosity and I wept when I saw the plans as did many of our neighbours. This is a low rise suburb, a small friendly neighbourhood. The blocks proposed, opposite where we live, will create imposing dark corridors blocking out our natural sunlight. Graham House is an eyesore but is pushed back off the road. There are no other such imposing complexes in the area and this will set a precedence to allow future high rises which will not be in keeping with their surroundings. We do not have the amenities for so many people. We are already fighting for doctors appointments. There will not be adequate car parking which is a huge problem. This will create a massive overspill onto our road and surrounding roads. We struggle to park already. The old precinct was never a noise problem as the shops opened during the daytime. We worry that with approximately 500 new neighbours and multiple shops the noise levels will become unbearable. We are all worried in our road that this monstrosity will irrevocably change the nature of our safe small community.
