Velvet Court Granby Row Manchester M1 7AB - 143425/TCA/2025

T1 - Cedar tree to be crown lifted to a height of 4m. Tree nearest lamp post (T1) to then have bottom 2m of crown reduced by approximately 1m all round.

T2 - Cedar tree to be crown lifted to a height of 4m.

I would usually seek to object to a lateral branch reduction on Cedar trees, however, given the positioning of the trees next to the building and the need for general tree management, we would have no objection to the proposed works.

The trees have much more growing potential and therefore these trees will need to be managed due to their position.

Kind regards
