Comment Details

Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: This green space is essential to keep as green belt land, with so many other developments going on in and around Chorlton/Stretford. The strength of feeling from the entire community is palpable whenever you mention that this might be turned into housing. It is in the interests of the people who live here, both past, present and future, to keep the land open for nature and walkers, and sports and outdoor activities, to support the mental health initiatives that advocate for all of the above to be available to people. Having been a resident of the area for over 30 years, I fully support the application with plans to retain Ryebank Fields as a Community Woodland and Meadow.
