Good morning,

**2 Stanton Avenue Manchester M20 2PG - 143994/TPO/2025**

The applicant has submitted the following pruning proposals:

- 1. Variegated Holly - Trim hard back to solid form. Reason – To control size.*
- 3. Purple Maple - Light reduce the lateral limbs over the lawn by 1.5 metres and remove deadwood 2cm+ in diameter. Reason – To control the spread over the garden.*
- 4. Holly - Re-reduce in height by 2.5 metres (to the original point of reduction) Prune sides to tidy. Reason – To maintain the overall size and the trees and a trimmed formation.*
- 14. Weeping Willow - Reduce the limb growing into the Silver Birch by 5 metres. Reshape other limbs in the top of the tree to balance as required. Reason – To reduce interference between the trees and reduce the risk of failure of the limb of the Willow.*
- 20. Copper Beech - Reduce the taller section of the tree in height by 2.5 metres. Reduce garden side by 2-2.5 metres due to the poor union at the base. Prune to clear the roof by 2 metres. Reason – To reduce the overall size of the canopy and wind loading on the tree due to the 'v' shaped union at the base.*

I can confirm that I have viewed the proposals and we would have no objection to the proposed routine pruning works for this site.

Kind regards

Rudi Farghaly
