Comment Details

Commenter Type: Member of the Public

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Buildings very tall on plans which are likely to impact in numerous detrimental ways on the region.

The number of anticipated residents would lead to very high-density living conditions.

- There is insufficient infrastructure for this development and the large number of other homes being built/applied for in Chorlton. (654 including this development - Feb 2025)

Need to consider space for public services necessary to look after new residents eg health and dental services, schools etc...

Need access to parking and adequate shops so do not lose the heart of the town.

- The plans do not include a civic centre with strong retail away from the main road.
- There are far fewer shops than before (Previously about 22 shops and now about 12)
- No large retail units e.g. no room for a 'Quality Save' type store
- Proposed green spaces are too small.
- Some trees will be lost - new trees take years to grow tall.

- The developers no longer guarantee that the social housing will be built.

We must support affordable housing and not private landlords profiteering or pricing out local residents.

- Not enough parking for residents - leading to potential congestion on surrounding roads
- Not enough parking for visiting shoppers including disabled people.

Thank you so much and please amend these plans to benefit the community.
