Cook Group Limited (GB 1181520): **Recommended Applicator** **VALID UNTIL**: **31st December 2025**

To whom it may concern,

We confirm **Cook Group Limited** are an approved installer of JUTA (**Class 1**), and are competent and capable of installing our full range of geosynthetic materials, including but not limited to; Gas membranes (including gas resistant DPC), Geomembranes, Geosynthetic Clay Liners, Geotextiles for separation, filtration, reinforcement and protection, Drainage Geocomposites, Gas Venting Geocomposites and accessory components and Structural Waterproofing Membranes.

Cook Group Limited have completed our 'Application Training Program' which covers a comprehensive portfolio of geosynthetics, their storage, handling, preparation and application/installation, and have been provided with all relevant product technical data sheets, installation guidance documentation, and material safety data sheets.

We further confirm that **Cook Group Limited** are a specialist **GAS MEMBRANE INSTALLER**, with NVQ level 2 (gas membrane installation) qualified installers, and as such have undertaken additional product application training for welded jointing and sealing of our specialist ground gas and waterproofing membranes, notably:

GP®1	**GP®TITANFLEX**
GP®2	**GP®TITANBOND**
GP®4	**GP®TITANTANK**
GP®DPC	**GP®H**
GP®1- SAM	**GP®5**

Recommended Applicator – Class Guide

Class 1 – Specialist **GAS MEMBRANE INSTALLER**, with at least two NVQ level 2 (gas membrane installation) and/or TWI/CSWIP plastic welding accreditiation, qualified installers, and as such have undertaken additional product application training for welded jointing and sealing of our specialist ground gas and waterproofing membranes.
Class 2 – Intermediate Installer with at least one NVQ level 2 (gas membrane installation) and/or TWI/CSWIP plastic welding accreditiation, qualified installer, and as such have undertaken additional product application training for welded jointing and sealing of our specialist ground gas and waterproofing membranes.
Class 3 – Basic Installer, with manufacturer product training and understanding of product guides, installation techniques and material warranties. No specialist training.

This Recommendation is issued on the **2nd January 2018**, and remains valid until the expiry date above and may be renewed subject to the Recommended Applicator successfully completing any training courses required by JUTA.

We trust that this meets with your requirements, however should you require any further information then please do not hesitate to contact the undersigned.

Best Regards
Patrick Flood
