No 1, St Michael's,
36 Jackson's Row,
Manchester M2 5DA

Canopies & Pizza Oven Main Kitchen

2 x Canopies in main kitchen

1 x Wall canopy 6m x 1.2m with 17 x Stainless steel baffle filters

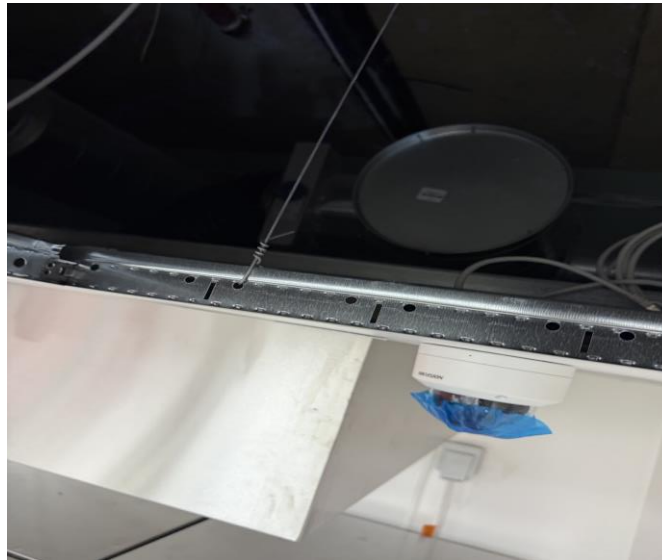

1 x Island canopy with 3m x 2m 8 x Stainless steel baffle filters and 4 x Stainless steel blanking plates

Any heavy build up of grease will be removed then a chemical washer with a degreasing agent

1 x Pizza Oven

Oven Canopies in pot wash areas 2 x room

There are two rooms just out the back of main kitchen with 1 x Oven canopy in each no filter will just need chemical wash with degreasing agent and spin brushes for the ductwork

Main Ductwork

Ducting in main kitchen above ceiling tiles , there are large hatches fitted throughout this ductwork which will allow access to scrape back then chemical wash

Ductwork from kitchen to bottom of riser

Corridor out side kitchen you can access duct above ceiling and there is also a Filter system located in this area there is also a door as shown before the fire doors where you can access the duct , there is a door directly to the Left as you go through the fire door where the bottom of the riser is located there are large hatches fitted throughout this ductwork which will allow access to scrape back then chemical wash

Roof Duck work and Riser

Hatches will be fitted

Duct on roof , All hatched out and access is pretty straight forward there are some additional hatches to be fitted and access near top of riser which should be done before clean also there is access to riser on every floor will need to require access to the building
