No press advert had been published

Departure from Development Plan: No

Environmental Statement: Not required

Description of site/building

Listed building: Not applicable

Conservation area: Not applicable

Tree Preservation Order: Not applicable

This 0.07ha site is bounded by Store Street, a 2 storey commercial building and residential development at Piccadilly Village and Chapeltown St. It is vacant and all trees and vegetation were cleared in 2021 to allow investigative works to establish the feasibility of development. A retaining wall on the northern boundary, restricts access to the site and currently it can only be accessed from Piccadilly Village.

The site slopes down to Store Street by about 4.5m. Some boundaries have fencing. There is an area of mature tree planting in front of the residential blocks. The grade II* listed Ashton canal aqueduct crosses Store Street nearby. Other listed buildings close to the site include the Stable block to the south east of Junction Works, 40 Ducie Street, Crusader Works and London Warehouse (all Grade II Listed). Stevenson Square Conservation Area is 250m away from the site and Ancoats Conservation Area 500m.

The site is 250 m South West of Piccadilly Station and is close to all sustainable transport options. It has been used for industrial activities since the nineteenth century and buildings were demolished in the late 20th century following which self seeded trees and vegetation became established.

Description of development

Permission was granted in 2022 for the erection of a 15 storey building comprising 54 apartments (Use Class C3) with associated residential facilities (residents lounge and terrace and office space), 2 car parking spaces and 57 cycle parking spaces, landscaping, access and associated development.

Consent is now sought to re-word a number of conditions to amend the triggers for submission of details due to the development of the delivery programme and are intended to reflect the phasing of construction with an initial period of enabling works and piling works programmed to take place prior to the main construction.

Consultations & Notification Responses

None

Issues

Principle of Proposed Amendments

The proposed amendments are required to keep the delivery programme of this housing scheme on track given that the planning permission expires on 21-12-25 and are considered to be of a non-material nature and acceptable to the City Council as Local Planning Authority. The City Council is satisfied that the proposed changes will have no material impact upon the previously approved scheme and the works will not adversely affect visual or residential amenity

within the area or will they have any significant material impact upon the overall quality of the development or impact on its fundamental nature.

Other Legislative Requirements

Equality Act 2010

Section 149 (Public Sector Equality Duty) of the Equality Act 2010 requires due regard to the need to: Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act and; Advance equality of opportunity between persons who share a protected characteristic and persons who do not share it. The Equality Duty does not impose a legal requirement to conduct an Equality Impact Assessment. Compliance with the Equality Duty involves consciously thinking about the aims of the Equality Duty as part of the process of decision-making.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) Reason 1: Following an assessment of the details and plans submitted, it is confirmed that the proposed amendments are considered to be of a non-material nature and acceptable to the City Council as Local Planning Authority. The City Council is satisfied that the proposed changes will have no material impact upon the previously approved scheme and the works will not adversely affect visual or residential amenity within the area or will they have any significant material impact upon the overall quality of the development

2) Reason 2: The re-wording of conditions is required to amend the triggers for submission of details due to the development of the delivery programme and are intended to reflect the phasing of construction with an initial period of enabling works and piling works programmed to take place prior to the main construction

3) (a) Notwithstanding the details submitted with the application, prior to the commencement of above ground construction the following shall be submitted for approval in writing by the City Council, as Local Planning Authority:

- *baseline samples and specifications of all materials to be used on all external elevations;
- *drawings to illustrate details of full sized sample panels that will be produced in line with an agreed programme: and
- *a programme for the production of the full sized sample panels a strategy for quality control management; and

The panels to be produced shall include jointing and fixing details between all component materials and any component panels , details of external ventilation requirements, details of the drips to be used to prevent staining and details of the glazing and frames

and

(b) Submission of a Construction Environmental Management Plan (CEMP)- Circular Economy Statement (Materials) to include details of the strategy for securing more efficient use of non-renewable material resources and to reducing the lifecycle impact of materials used in construction and how this would be achieved through the selection of materials with low environmental impact throughout their lifecycle;

(c) The sample panels and quality control management strategy shall then be submitted and approved in writing by the City Council as local planning authority in accordance with the programme and dwgs as agreed above.

Reason - To ensure that the appearance of the development is acceptable to the City Council as local planning authority in the interests of the visual amenity of the area within which the site is located, as specified in policies SP1 and DM1 of the Core Strategy.

7) Prior to the commencement of any phase of the development a detailed construction management plan for that phase outlining working practices during development shall be submitted to and approved in writing by the local planning authority. This shall include:

- *Display of an emergency contact number;
- *Details of measures to control dust and mud including on the surrounding public highway including: details of how the wheels of contractor's vehicles are to be cleaned during the construction period;
- *Dust suppression measures;
- *Compound locations where relevant;
- *Location, removal and recycling of waste;
- *Routing strategy and swept path analysis;
- *Parking of construction vehicles and staff;
- *Sheeting over of construction vehicles;
- *Communication strategy with residents which shall include details of how there will be engagement, consult and notify residents during the works;
- * Details of the loading and unloading of plant and materials;
- * Details of the storage of plant and materials used in constructing the development;

Manchester City Council encourages all contractors to be 'considerate contractors' when working in the city by being aware of the needs of neighbours and the environment. Membership of the Considerate Constructors Scheme is highly recommended.

Development shall be carried out in accordance with the approved construction management plan.

Reason - To safeguard the amenities of nearby residents and highway safety, pursuant to policies SP1, EN9, EN19 and DM1 of the Manchester Core Strategy (July 2012).

8) Prior to the commencement of above ground construction a programme for submission of final details of the following shall be submitted and approved in writing by the City Council as Local Planning Authority. The programme shall include an implementation timeframe and details of when the following details will be submitted.

(a) Details of hours during which the terrace at 1st floor level will be open to residents and the mechanisms which would prevent use outside of those hours;

(b) Details of (a) all hard (to include use of natural stone or other high quality materials) around the site perimeter (excluding Store Street pavements)

(c) Details of measures to create potential opportunities to enhance and create new biodiversity within the development to include, the details species within the shared terrace areas, bee hotels and opportunities for bird nesting (including House Sparrows and Black Redstarts);

(d) Final details of the green roofs (1st floor parking roof and main roof level) including details of planting species to be included and details of on going maintenance;

and shall then be submitted and approved in writing by the City Council as local planning authority in accordance with the programme as agreed above.

Reason - To ensure a satisfactory development delivered in accordance with the above plans and in the interest of pedestrian and highway safety pursuant to Section 170 of the NPPF 2019, to ensure that a satisfactory landscaping scheme for the development is carried out that respects the character and visual amenities of the area, in accordance with policies R1.1, I3.1, T3.1, S1.1, E2.5, E3.7 and RC4 of the Unitary Development Plan for the City of Manchester and policies SP1, DM1, EN1, EN9 EN14 and EN15 of the Core Strategy.

34) Before above ground construction commences final details of the wind mitigation to the level 1 north, level 2 and level 13 north terraces as shown in dwg and confirmation from a suitably qualified Wind Consultant that this would be adequate shall be submitted to and approved in writing. The approved scheme shall be implemented prior to any use of the terrace commencing and and thereafter retained and maintained in situ.

Reason - In the interest of creating a suitable and safe environment for residents and in the interests of visual amenity pursuant to policies SP1 and DM1 of the Manchester Core Strategy (2012).
