Dear Sir/Madam,

Application under Section 96a of the Town & Country Planning Act 1990 (as amended) for a Non-Material change to a planning permission

Application No: 143485/NMC/2025

Description: Non-material amendment to Planning Permission 134288/FO/2022 (as amended by 141022, 136085 and 142846) and to vary the wordings of Conditions 2 (Approved Plans) and 6 (Public Realm) for hard and soft landscaping amendments.

Location: No.3 Circle Square , Land Bounded By Princess Street, Newman Street (Formerly Brancaster Road) , Cloak Street, Manchester, M1 7ED

I refer to your application for a non-material amendment to planning permission reference 134288/FO/2022.

Therefore I can confirm that the proposed amendments are hereby **approved**.

It should be noted that this letter of consent does not supersede the decision notice attached to planning permission 134288/FO/2022. These documents should be read in conjunction with one another. Therefore, the conditions previously applied to approval 134288/FO/2022 still apply to this development. However, due to the acceptance of the amendments outlined above, the following amended conditions also now apply:

1) Reason 1: Following an assessment of the details and plans submitted, it is confirmed that the proposed amendments are considered to be of a non-material nature and acceptable to the City Council as Local Planning Authority. The City Council is satisfied that the proposed changes will have no material impact upon the previously approved scheme and the works will not adversely affect visual or residential amenity within the area or will they have any significant material impact upon the overall quality of the development

2) Reason 2: The re-wording of conditions is required to amend the approved drawings in relation to the external landscaping and external areas associated with the commercial units. The amendments are necessary due to the presence of shallow undergrounds services associated with the substation which were not previously known and desire through design development to improve the landscaping through including a sculpture and the opening up and removal of barriers between the Commercial Units 1 & 2 spill out

spaces in order to maximise usage of the area and to facilitate circulation as well as making the units more attractive to commercial tenants

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:
