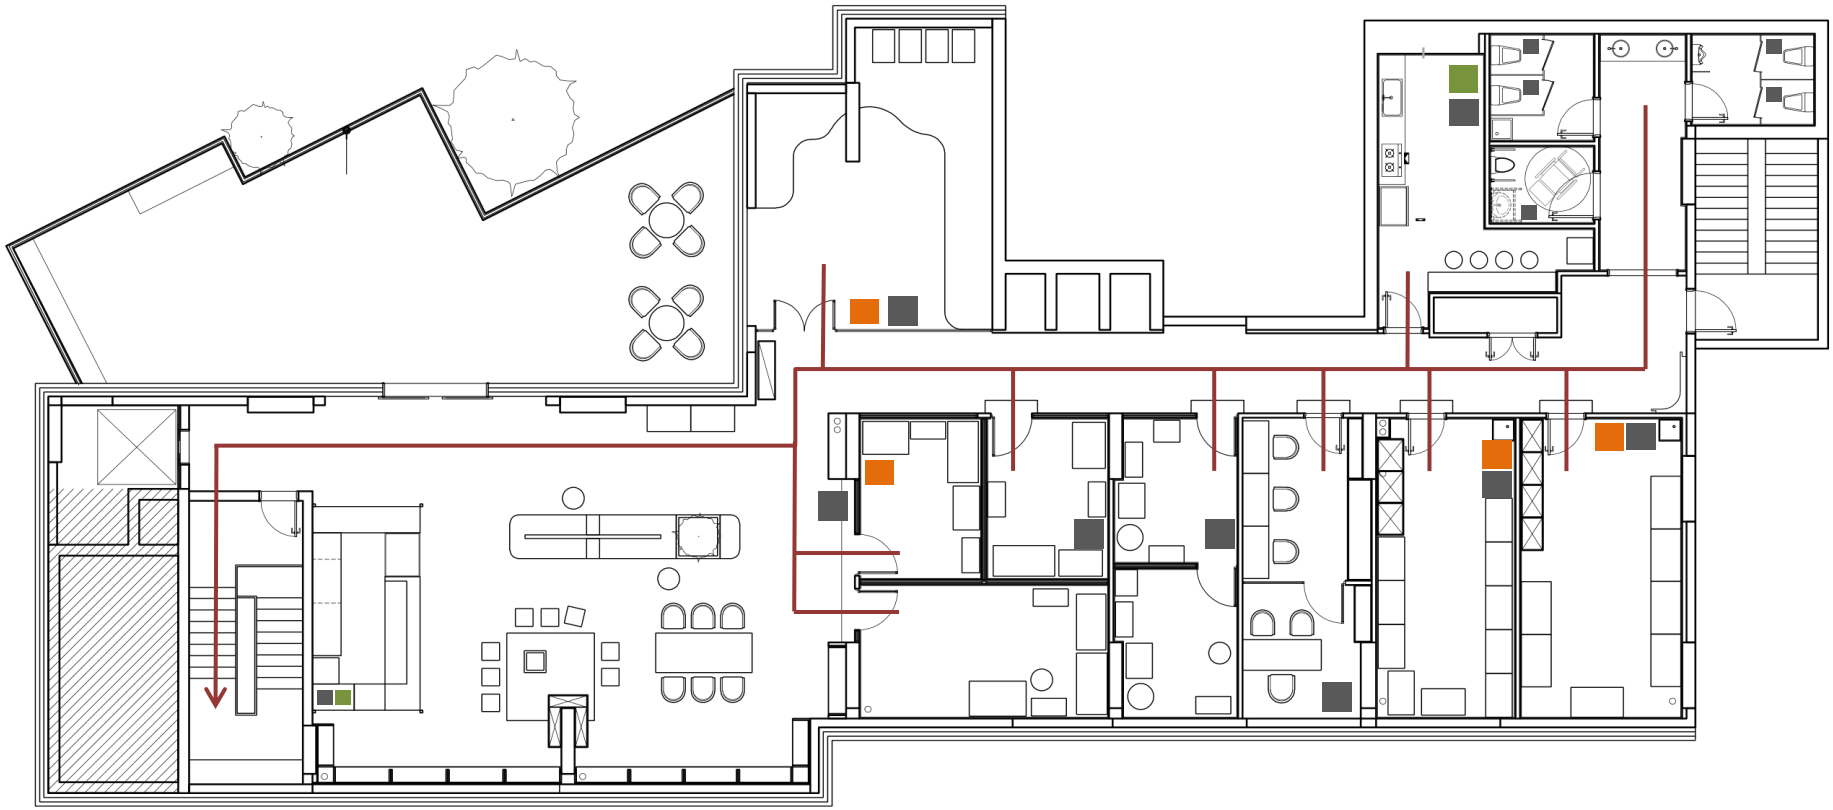
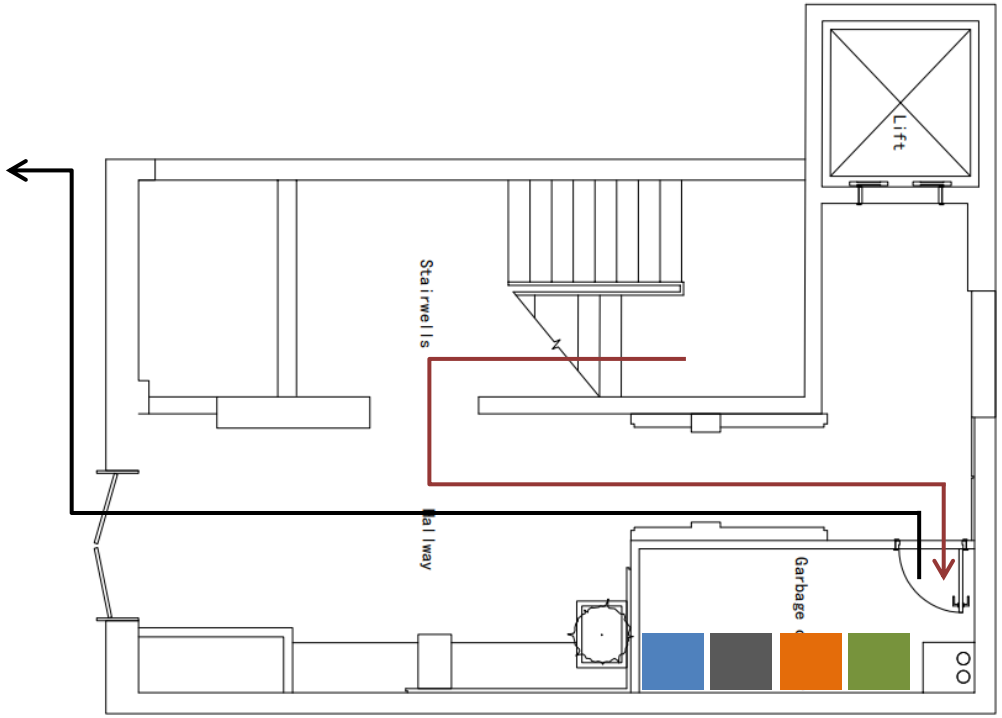
Waste Management Process ---- Lollipaws club

Scheduled waste collection route:



First floor - Main business area



Ground floor

Food Waste Bin
Dry Mixed Recycling Bin
General Waste Bin
Animal By-Products Bin
Internal collection routes
External collection routes

Collection methods:

The majority of waste is generated on the first floor. During business hours, all waste is sorted and deposited into designated bins located in respective rooms or zones. At the end of each business day, waste from the first floor is collected and transported via a predetermined route to the ground-floor waste storage area. All waste is collected by a licensed disposal company on a weekly basis.

Pet waste shall be deposited in designated Animal By-Products Bin, while pet waste contaminated with non-recyclable bedding materials shall be disposed of in general waste bins.
