Informatives

This decision relates to the extension or improvement of an existing dwellinghouse, falling within Class C3 of the Town and Country Planning (Use Classes) Order 1987 (as amended) and does not infer or imply approval for the use of the property for any other purpose.

Manchester City Council has made an Article 4 Direction to remove permitted development rights that allow for a change of use from Class C3 - *Dwellinghouses* to Class C4 - *House in Multiple Occupation*. This means that from 8 October 2011, planning permission is required for a change of use from a Dwellinghouse to a House in Multiple Occupation. Further information regarding the Article 4 direction can be found on Manchester City Council's website:

www.manchester.gov.uk/info/200074/planning/4847/article_4_direction

If you intend to use the property to which this decision relates for any purpose other than a dwellinghouse, you should first contact Manchester City Council's Planning

Service. Failure to obtain any necessary planning permission prior to carrying out a material change of use or physical development could result in enforcement action being taken, which can have serious implications.

This permission does not grant approval under Building Regulations.

It should be ensured that any cables associated with the EV charger reaches the vehicle.

Use of matting is required for cables to protect pedestrians along the footway.

The matting/cable protector should be non-slip and suitable for outdoor use. It should have contrasting colour markings for visibility. It should also have sloped, anti-trip sides, and be of a tough construction.

Residents are recommended to park adjacent to the location of the charging point and use matting on the adopted highway to maintain pedestrian movement. Once the vehicle has been charged, residents will be required to remove the matting and EV cabling from the
highway.
