Hi,

I hope you are well.

I am writing with regards to application number 142758/FH/2025.

[REDACTED] whilst we have no issue with the extension build, we do have a concern about the window that is proposed on the top floor of the rear of the house.

From looking at the 'Drawing-Proposed' document, they seem to be proposing a floor to ceiling window with a Juliet balcony and given we both have quite small gardens, we feel this large window will mean we are overlooked in our garden and house, as well as the fact we'd be able to see into their master bedroom. There are trees which provide some cover in spring and summer, but they are bare throughout the autumn and winter months.

We understand there will need to be a window there, so our concern is with the size of the window that's being proposed.

If you have any questions or need any more information, please let me know.

Kind regards
[REDACTED]
