Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. Description

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s)

The proposal is to remove and replace the lower section of shopfront of 17 King Street as outlined in the drawings. We propose to create an opening between 13-15 King Street and 17 King Street internally to connect the two units, as Boodles takes possession of both units. The listed cornice and beams will be protected, above a new MF ceiling. The proposal is to replace/update the existing staircase to bring this design in line with the overall high standard of the unit. All items are outlined in the drawings submitted as a part of this proposal.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

[You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons](#)

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The site is a retail store in the city centre with no surrounding habitats/nature/trees etc within or in proximity of the development. The proposed works are internal & apply to the shopfront area only, no land is involved within this application.

Note: Please read the help text for further information why developments may be exempt or not in scope.
