FLOOR LEVEL B2. Lower Basement level.**Level B1. Context and general character.**

- i) Floor **level B1** (photographed on 16th September 2020) is the basement staff canteen, that also includes storage area, kitchens, plant and dining area. The basement staff canteen was comprehensively remodelled prior to listing in 2001 to create a more informal layout and resulted in the complete change in fabric and character of the space, including the loss of a mural by Vincenzo Apicella.
- ii) The 2001 alterations to the B1 cafeteria created a new extension (fire lobby) with new metal stairs connecting the dining area, cafeteria, shop and florist area to the ground-floor. The cafeteria space was re-carpeted and redecorated. The square section concrete columns remain but were re-clad to create circular piers, transforming the original design of the space.
- iii) The ceilings and lighting was also completely altered, and the space was partially subdivided podium level created on raised floor. Typical stair cores on either side (which correspond to air raid shelter stairs). Central core Storage on north side.
- iv) Refer to the below plan, Figure 1 for the location and direction of views.
