Comment Details

Commenter Type: Neighbour
Stance: Customer objects to the Planning Application
Comment Reasons:
Comment:Our house at [redacted] is one of the closest to the proposed development. The current tower block dominates the view from our bedroom window and I can see straight into the building from my bed. With the new proposed tower block being built closer to the road this will be even more dominating and residents will have a view directly into my bedroom.
There is also the issue of light - the proposed new building will effectively block any view we have of the sky.
