Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to the current design of the proposed store.

The level of car parking is excessive. This location is well served by buses, nearby neighbourhoods are easily walkable, high-quality cycle lanes exist in the vicinity. Extensive parking contradicts the council's policy to reduce car usage.

The store frontage must align with the road. A setback with visible parking diminishes the character of the area.

Access must be possible from every direction. The current design only allows western access. Residents on other sides should not be required to make extensive detours.

The road proposed for store access is excessively wide. The expanse of tarmac will negatively impact the pedestrian experience along Wilmslow Road. This roadway requires significant narrowing.

Cycle parking provision is inadequate. Existing spaces are poorly positioned away from the store entrance.

If all these issues are addressed having another store in the area wouldnt be a terrible idea.
